PARKINGPRO®

PARKINGPRO DRIVER APP

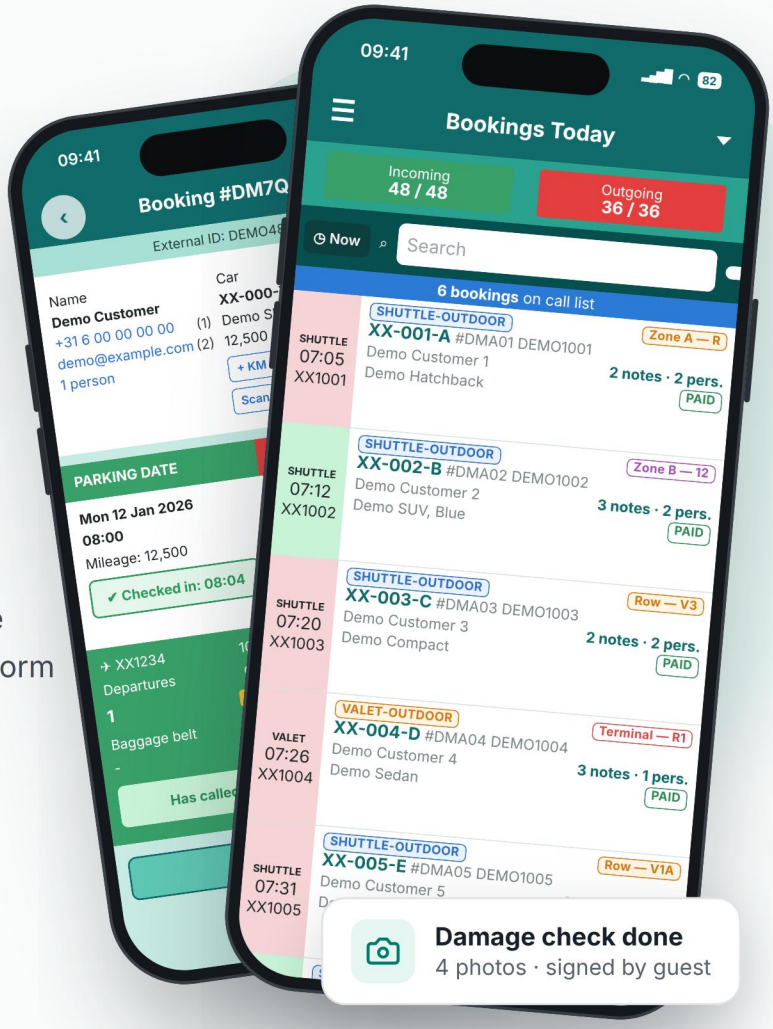

Your team on the move. Every handover right.

The Driver App connects key handover, damage checks and time registration with the same platform that manages your reservations, barriers and payments.

Download on the App Store

Get it on Google Play

iPhone · iPad · Android

EVERYTHING YOUR TEAM NEEDS ON THE GO

Faster handovers. No discussions.

Digital check-in and out

Guest, plate, flight and keys confirmed in one tap at arrival and return — no paperwork.

Photo damage checks

A quick photo damage report at every handover, linked directly to the reservation.

Time registration

Pick-up, return and working times are logged automatically for transparent billing.

QR & licence plate scanner

Scan the booking QR code or the licence plate and instantly see the reservation, guest and location.

Real-time location management

Know where every vehicle is and what its status is, across every location.

Always up to date

Changes from the platform appear in the app instantly — one source of truth.

INSIDE THE APP

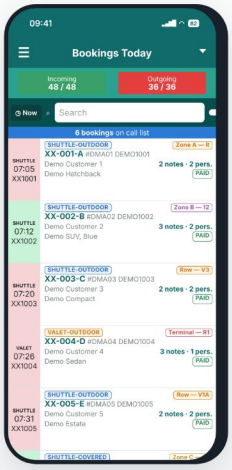

INSIDE THE APP

Every screen your team works with.

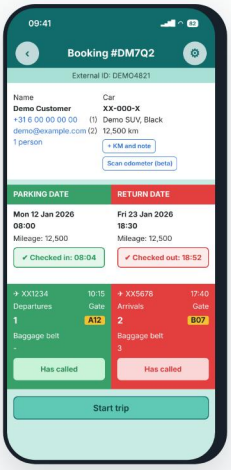

Call list

Calling order per trip, from pick-up to return.

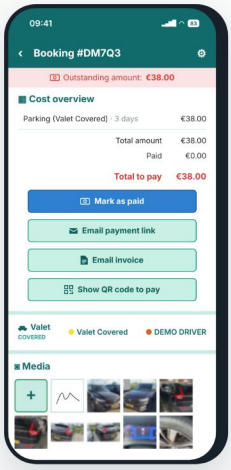

Day list

Every arrival and departure today, with status.

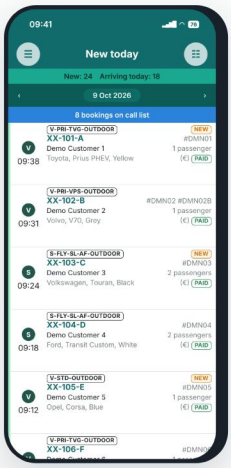

Check In / Out

Guest, plate and flight confirmed in one tap.

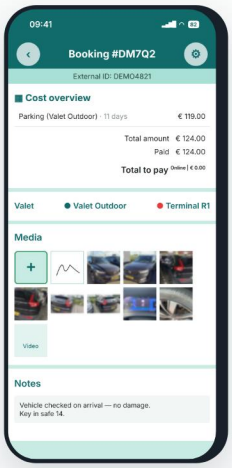

Payments

Payment link, invoice or QR code on the spot.

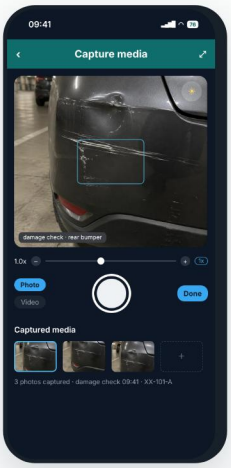

New bookings

Bookings that arrived today, in order.

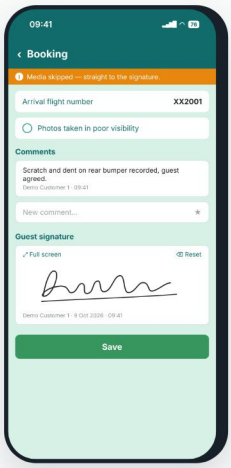

Photos

Damage check and costs per booking.

Capture media

Vehicle photos right at the handover.

Signature

The guest signs digitally for approval.

LIVE FLIGHT TIMES

A day list that is always right.

Departure and arrival times come straight from our flight-times API, with gate information. Delays are processed live — in the app and on the desktop.

SEE IT IN ACTION

Book a demo with your own locations and processes.

sales@parkingpro.eu

Screens show demo content; names, plates and figures are sample data.
