PARKINGPRO®

CORPORATE BROCHURE

The real-time platform behind international parking bookings.

ParkingPro connects parking operators, booking platforms and AI applications through one powerful parking management system.

Live prices, dynamic rates, availability, reservations and access control — from one parking location to an international multi-airport network.

500+ locations

100+ API partners

5M+ reservations

10+ countries

ONE PLATFORM FOR

- Airport Parking
- Airport Hotels
- Car Rental
- Real Estate & Parking
- Resellers & booking platforms

From booking to barrier

Booking, payment, check-in and ticketless access in one flow.

Open API & MCP

Connect your own partners, systems and AI assistants freely.

One supplier

Software and hardware supplied, installed and maintained by us.

FOR EVERY CAR PARK

One platform, four specialisms.

Whether you manage thousands of spaces at an airport or optimise a hotel car park — ParkingPro adapts to your operation.

Airport Parking

Reservations, capacity, dynamic pricing and valet operations in one place — from shuttle to terminal.

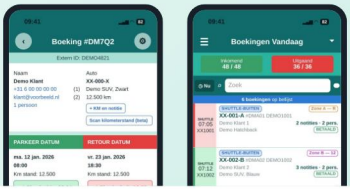

- Live flight times in your day list
- Valet, shuttle and Driver App

Airport Hotels

Protect parking for your guests and monetise remaining capacity via your site, resellers and AI channels.

- Dedicated capacity for guests
- Ticketless ANPR access

Car Rental

Fleet, keys and handovers handled digitally, including damage checks and time logging via the Driver App.

- Digital check-in and damage registration
- Key management and GPS tracking

Real Estate & Parking

Rent out parking spaces on demand, with full control over access, usage and revenue.

- Subscriptions and on-demand parking
- Access via plate, QR or NFC

OPEN BY DESIGN

Full access. Freedom of integration.

Your parking facility, your data, your choices. Where other systems restrict integrations or charge extra for access, ParkingPro gives you full access — without closed proprietary systems.

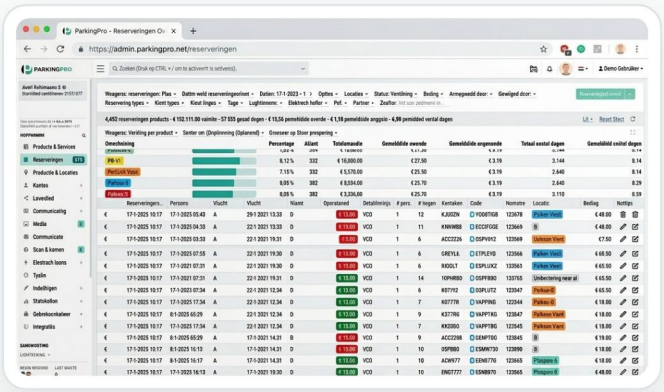

- Full access to your own data and reporting
- Open API and MCP for your own partners and AI channels
- Works with existing barriers and ANPR cameras
- Next-gen ParkingPro Barriers wherever you want to upgrade

For resellers & booking platforms: one API, 500+ locations.
100% of bookings delivered correctly, plus Platform 2 Platform booking distribution through the ParkingPro ecosystem.

ALL IN ONE PLATFORM

Everything that keeps your parking operation running.

A central multichannel manager bringing reservations, staff, hardware and finance together. Real-time insight, less manual work and a better customer experience.

Reservations & capacity

Real-time availability across locations, with overbooking rules and automatic allocation.

Dynamic pricing

Prices per period, occupancy or channel. Yield management that raises revenue per space.

Payments & invoicing

Cards, local payment methods, pay later and business invoicing — fully automated.

Driver Mobile App

Digital valet check-in, damage registration, key management and GPS tracking.

Booking forms & websites

Fast multistep booking forms in any language and brand style.

Subscriptions

Annual contracts and subscription parking with automatic renewal and direct debit.

COMMAND CENTER & REVENUE INTELLIGENCE

Live flight times included

Keep your hardware. Upgrade your intelligence.

01

Know what's available

Booked, on-site and bookable in a single overview.

02

Manage the value

Rates by season, product and sales channel.

03

From booking to barrier

Ticketless access with your existing hardware.

Integrations

Connect your bookings to every tool you use

API · MCP · Mailings · NFC · QR · Wallet · Payments · WhatsApp · Meta · Google

Your own booking form? Use our API.

Query live availability and prices, and create reservations that appear instantly.

Connect AI? Use our MCP.

Let AI assistants answer questions about availability, prices and reservations — securely.

HARDWARE

Software and technology from one supplier.

We supply, install and maintain the equipment on your site — directly connected to the platform, with no disconnected systems. Already have barriers? ParkingPro connects to your existing setup.

Barrier systems

Reliable barriers, fully linked to your reservations.

ANPR cameras

Access without tickets or queues.

QR code & NFC

Contactless access for guests and staff.

Label printers

Stickers, key labels, receipts and tickets.

Key safes

Secure, logged key management for valet.

Robotics

Robotic key storage and handover.

TICKETLESS ACCESS

From booking to barrier.

01

Booked online

Via your site, a reseller, a platform or an AI assistant.

02

Plate recognised

ANPR camera matches the plate to the reservation.

03

Barrier opens

No ticket, no queue — or a QR code for partner bookings.

04

Settled automatically

Extra time, payment and check-out handled by the platform.

AI & AGENTIC COMMERCE

Ready for AI bookings — from AI assistant to barrier.

Real-time availability for AI assistants, agentic checkout and automated ANPR access. Your parking, bookable wherever travellers ask.

PARKINGPRO®

PARTNERS & RESELLERS

API INTEGRATIONS

Connected to 100+ parking and travel technology partners.

Booking platforms, resellers, travel agencies, airlines, payment providers and access systems. One central inventory and one truth about your availability.

Reseller channels · Travel agencies · Airlines · Payment providers · Access systems · Google

Booking channels & resellers

Live availability and prices on every channel

PARKOS · ParkMundo · holiday extras · ParkVia · ROOSH. · Parclick
