PARKINGPRO®

AIRPORT PARKING

Software for airport car parks

ParkingPro unites reservations, shuttle planning, valet, payments and barriers in one system. From 200 to 20,000 spaces, across multiple airports at once.

More info: parkingpro.eu/en/solutions/airport-parking

FOR AIRPORT PARKING OPERATORS

One system. Every parking operation.

Reservations, capacity and rates

Free spaces per terminal, site and rate group. Overbooking rules absorb no-shows and late departures.

Valet, shuttle and staff

Scan the plate, photograph damage and label the key in the Driver App. Every action is logged.

Barriers and plate recognition

ANPR, barriers, kiosks and label printers linked to the reservation. One supplier, one party accountable.

Real-time flight data

Delays, early arrivals and gate changes appear directly in your day list and planning.

Multichannel Manager

Prices and availability for every channel from one place. A change updates everywhere instantly.

Live GPS tracking

See every shuttle and valet trip live. Customers get a live expected pickup time.

Annual subscriptions

Quotes, digital signatures and automatic renewals, with access via plate, NFC or QR.

An open platform

Booking channels, payments, flight data and marketing tools connected via APIs and webhooks.

250+ car parks **100+** API partners **5M+** reservations **10+** countries
