PARKINGPRO®

VALET PARKING SOFTWARE

Valet parking. Run from one app.

The ParkingPro Driver App is the heart of your valet operation: photo check-in, digital signature, live flight and gate info — linked to every booking.

1 tap
check-in at the terminal or on site

Live
flight times and gate info

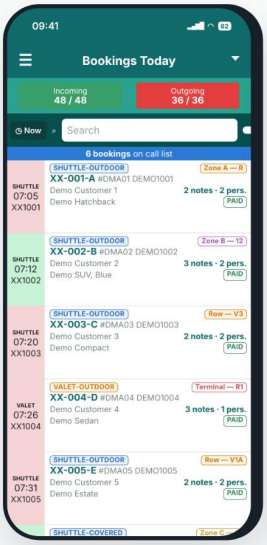

0
paper lists or loose notes

+30%
up to more revenue per space*

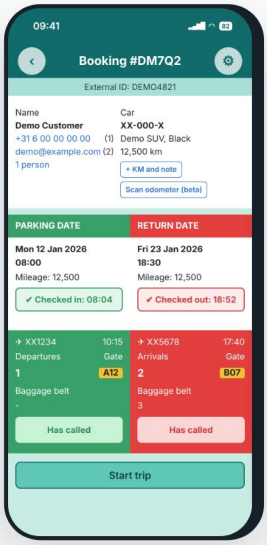

PARKINGPRO DRIVER APP

iPhone · iPad · Android

Every handover on record. In the driver's hand.

Day list
Every arrival and departure today, with live flight time and gate.

Check-in & out
Guest, plate, flight and mileage confirmed in one tap.

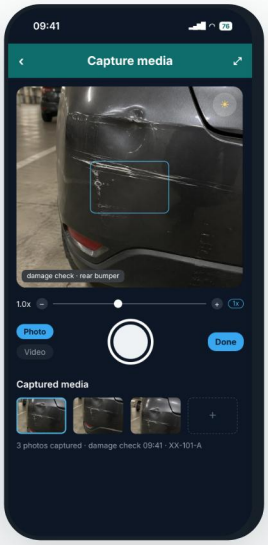

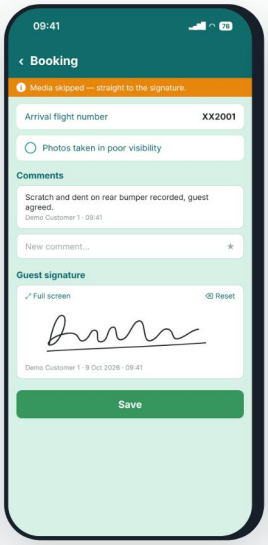

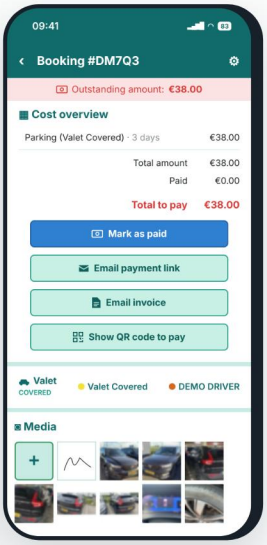

Photo check
Vehicle photos at every handover, stored with the booking.

Digital signature
The guest signs on the phone, with damage and comments.

Payments
Payment link, invoice or QR code on the spot.

- ✓ QR & licence plate scanner
- ✓ Keys and labels logged
- ✓ GPS driver tracking
- ✓ Call list per trip

One system, no double work.
Bookings from every channel, flight changes and Floorplanner rows appear live on the driver's phone — and every handover flows straight back to the office.

VALET PROCESS & PARTNERS

THE VALET PROCESS, CONNECTED

From terminal to row. And back on time.

01
Booking & pick-up
Every car linked to the right reservation, flight and service.

02
Digital handover
Photos, signature and keys recorded in the Driver App.

03
Parked in rows
Floorplanner Pro plans rows by return date.

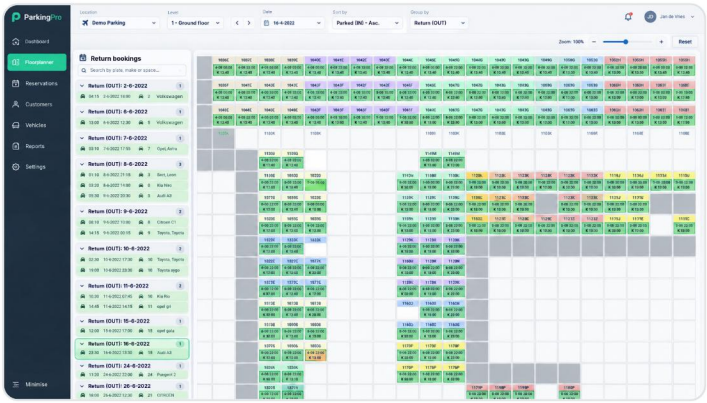

04
Ready on return
Flight delays move the plan — the car is ready on time.

FLOORPLANNER PRO

Park in rows. Up to 30% more revenue per space.*

Your team holds the keys, so cars park bumper to bumper in rows, nested by return date.

- Exact 1:1 floor plan of your site
- Colour per return day, first back at the front
- Linked to the Driver App and live flight times

Booking channels & resellers

Bookings from every channel land straight in the Driver App
